# WHY ARMSTRONG VINYL SHEET

## UNSURPASSED REALISM

Like a hi-definition TV, our cutting-edge MasterWorks 3D print technology makes your floor look as real as its natural inspiration. The innovation captures the definition, depth and dimension of natural materials, so stones look and feel like stones and woods look and feel like woods. Plus, our world-class product designers provide you with a collection that offers a design option for every taste, style and décor.

**NOTE:** When seaming is required in an installation, Armstrong communicates pattern matching in two ways: the true design repeat (length, width and drop) and the "economy match." For best results, we recommend that the true design repeat be used to match the pattern. However, in some installations, the economy match can be used with satisfactory results. While the economy match is not a true match, it can be used where 6' or 12' material is installed with a small fill. Please note: when multiple 6' or 12' widths or a fill of wider than 6' for 12' materials or 3' for 6' materials are required, always refer to the true design repeat.

**NOTE:** When seaming is required in an installation, Armstrong communicates pattern matching in two ways: the true design repeat (length, width and drop) and the "economy match." For best results, we recommend that the true design repeat be used to match the pattern. However, in some installations, the economy match can be used with satisfactory results. While the economy match is not a true match, it can be used where 6' or 12' material is installed with a small fill. Please note: when multiple 6' or 12' widths or a fill of wider than 6' for 12' materials or 3' for 6' materials are required, always refer to the true design repeat.

## FLOOR CARE

### FLOOR CARE PRODUCTS

The Armstrong® family of floor care products is designed to keep your Armstrong floor looking as beautiful as the day it was installed.

Ask your Armstrong flooring retailer about:

- Once 'n Done® Resilient & Ceramic Floor Cleaner
- New Beginning® Resilient Deep Cleaning Floor Stripper
- Satinkeeper® Low Gloss Floor Finish
- Shinekeeper® Floor Finish

For additional information about specific floor care products and where to purchase, please visit [www.armstrong.com/floorcare](http://www.armstrong.com/floorcare).

**NOTE:** When seaming is required in an installation, Armstrong communicates pattern matching in two ways: the true design repeat (length, width and drop) and the "economy match." For best results, we recommend that the true design repeat be used to match the pattern. However, in some installations, the economy match can be used with satisfactory results. While the economy match is not a true match, it can be used where 6' or 12' material is installed with a small fill. Please note: when multiple 6' or 12' widths or a fill of wider than 6' for 12' materials or 3' for 6' materials are required, always refer to the true design repeat.

Armstrong has been providing beautiful, long-lasting flooring for more than a century. Our name is known and trusted the world over for consistent quality, innovative designs and incredibly satisfied customers. And most important to today's shoppers, Armstrong has an exciting array of flooring for every home and every personality – everything from resilient sheet to laminate, from linoleum to ceramic, and from vinyl tile to hardwood.

Trust Armstrong and your flooring retailer to help you select and install a floor that will be a source of pride and comfort in your home for many years.
